

Notification Service - Benachrichtigungsdienst

Synopsis

The notification service is an additional service provided for users with defined search profiles. If activated, the user will receive a daily e-mail informing him/her about new publications that fit the defined profiles. In order to use this feature search profiles have to be added via the "Suchprofile" section of the "Vergabemarktplatz."

Notification service

 The notifications service sends e-mails to the following e-mail address: `service@demo.cosinex.de` ¹⁾

Available [Search profiles](#)

Actions

- [Activate notification service](#)
- [Benachrichtigungsdienst deaktivieren](#)

Activate notification service

Menüeintrag: **Verwaltung › Eigene Daten**

1. Choose the search profile to be informed about by ticking the respective "Benachrichtigung aktivieren" box (see number 1 in [screenshot "Übersicht Modul Unternehmen"](#)).
Each user can choose an individual number of search profiles to be used for the notification service.
2. Click the "Speichern" button to save the information (see number 2 in [screenshot "Übersicht Modul Unternehmen"](#)).

Benachrichtigungsdienst deaktivieren

menu: **Verwaltung › Eigene Daten**

1. Choose the search profile no longer to be informed about by un-ticking the respective "Benachrichtigung aktivieren" box (see number 1 in [screenshot "Übersicht Modul Unternehmen"](#)).
Each user can choose an individual number of search profiles to be used for the notification service.
2. Click the "Speichern" button to save the information (see number 2 in [screenshot "Übersicht Modul Unternehmen"](#)).
